# Domestic Hot Water Recirculation Systems eBook

**Monday Morning Minutes** | by Norm Hall, April 18, 2022

The design of a domestic water recirculation system is critical for commercial and institutional buildings. Today, R. L. Deppmann launches a new resource to assist the many new engineers entering the world of HVAC and plumbing design. We are proud to introduce our first Monday Morning Minute eBook for your virtual library: How to Design Domestic Hot Water Recirculation Systems.

## Download Your Free Copy Today

The engineer is responsible for determining the BTU load, the flow rate, the pump head, and equipment selection. This free eBook offering from R. L. Deppmann will assist the designer with the brief processes required. Click on the link below to gain access to this new tool.
